and solutions for FTTX  
and HFC networks**

## braun teleCom

As a supplier of broadband communication technology braun teleCom has stood for competence and continuity for more than 30 years. With our long experience and constantly growing know-how we have become a leading supplier of systems and system components for HFC and FTTX broadband networks.

While, in many areas, our activities focus on the development and production of our own products, we also serve as distributor for selected high-performance cooperation partners to achieve best possible customer satisfaction.

Further to our HFC and FTTX product lines, consisting of active and passive components, we have continually expanded our range by successfully integrating sophisticated services into our portfolio.

We have set highest quality standards for our entire range of products and services, while ensuring that we offer the best possible price-performance ratio.

braun teleCom is part of the BTV Multimedia Group. Our aim as a leading value-added supply partner is to provide our customers with the best products and services in the broadband industry.
